

Annual Independent Living Programs Totals

Year	# Applied	# Rehab'd	% of Authorized Rehab'd
FY 05	2588	2693	107%
FY 06	2213	2839	113%
FY 07	2115	2540	102%
FY 08	1728	2235	89%
FY 09	1680	2035	75%

NOTE: The annual Legislative CAP if ILP authorizations up to this point were 2500/yr. It was subsequently raised to 2700/yr. Interesting to note is that more severely disabled veterans were being IL Rehabilitated than had actually applied.

FY 10	2456	1880	69%
FY 11	2539	1899	70%
FY 12	2428	1836	68%
FY 13	2152	1708	63%

NOTE: Post FY 09 although the application rate has increased, the % of those actually being 'rehab'd' has decreased significantly.

Why are 24% of Vets enrolled not being rehabilitated? Died waiting for goods/services or perhaps just inaction by Voc Rehab Counselors(VRC), or combination of both?
