United States Military Veterans are asking the public's help in laughing at William Derek Church and pointing him out in public. Church is a common liar who masquerades as a US Army Airborne Ranger Staff Sergeant with an 82nd Airborne Division combat patch. He has stolen the valor of all military veterans by wearing -- **without authorization** -- the Combat Infantryman Badge, Ranger Battalion Scroll, Master Parachutist Badge, Pathfinder Badge, Purple Heart Medal, Army Good Conduct Medal, and any medal/ribbon other than the National Defense Service Medal. Church's outrageous lies include: that he was awarded the Purple Heart Medal for being shot six times in the chest in Bagdad [sic] "just after 9/11" 2001 [two years before US armed forces were ever deployed]; that he has a metal plate in his chest; that he has a TBI (Traumatic Brain Injury); that he served three back-to-back tours to Iraq and Afghanistan; that he graduated the Basic and Advanced NCO Courses and then promoted to corporal; that he was retired for "mental problems" but recalled to the Ranger Battalion because they needed him. In reality, Church was discharged as a Private First Class with only five weeks' active service in the Army from 8 August 1995 through 13 September 1995. Too many lies, not enough space

Subject Church is a liar and extremely annoying.

Anyone with information on this POS is asked to interface with him and make his life hell until he returns the bogus uniforms, medals, and stolen valor to representatives of <thisainthell.us>. or any local Veterans' Organization.
